

Name: Amber Khurshid

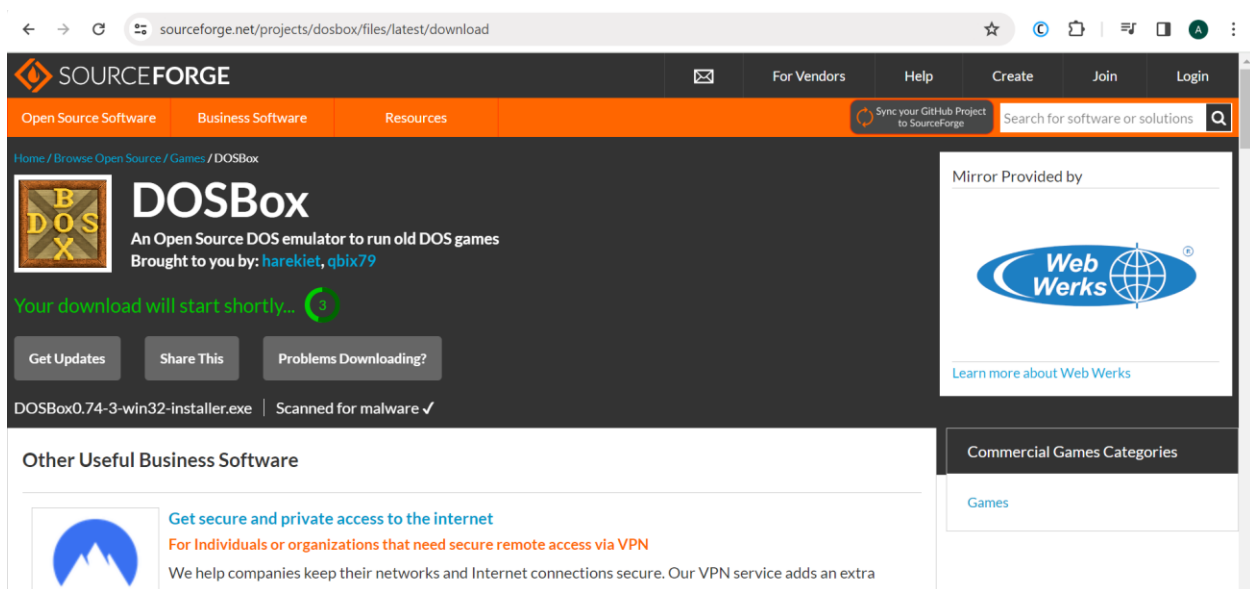

Section: BAI-4A

Roll No: 22P-9295

COAL Lab Task 1

Step 1:

Installed DOSBox from SOURCEFORGE.

Step 2:

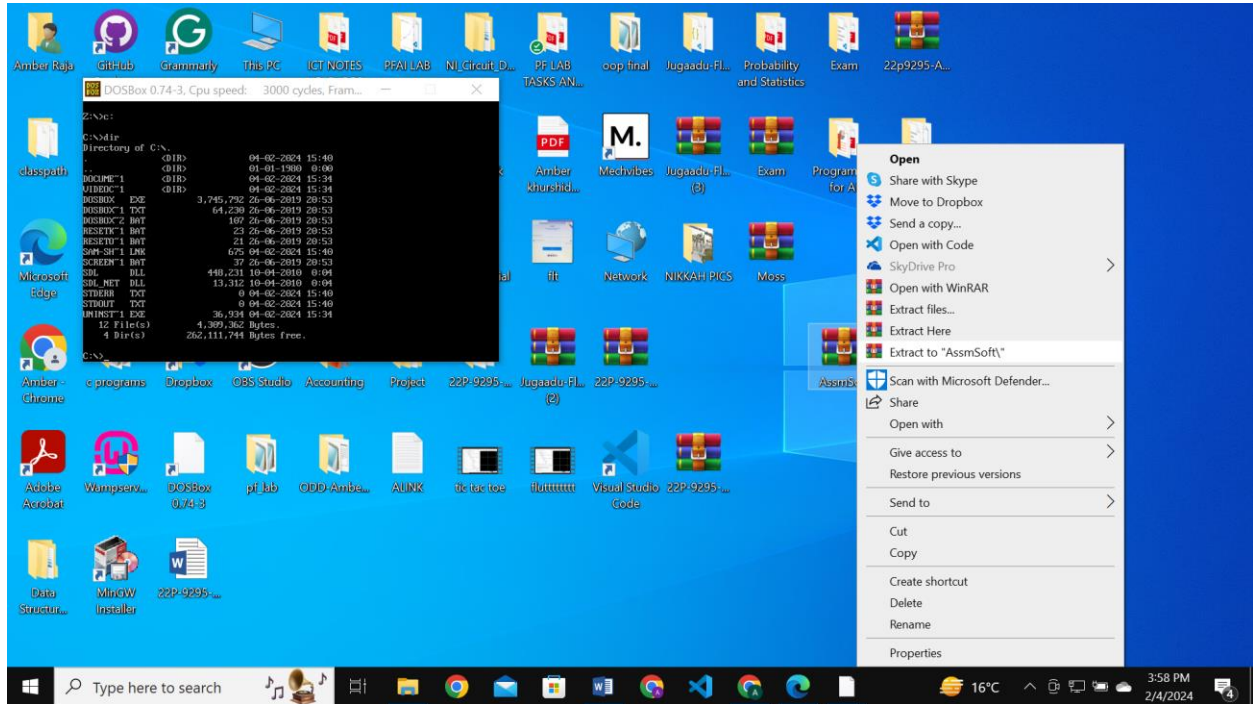

Finish DOSBox set up by mounting it using the following command.

mount c c:\sam

Step 4:

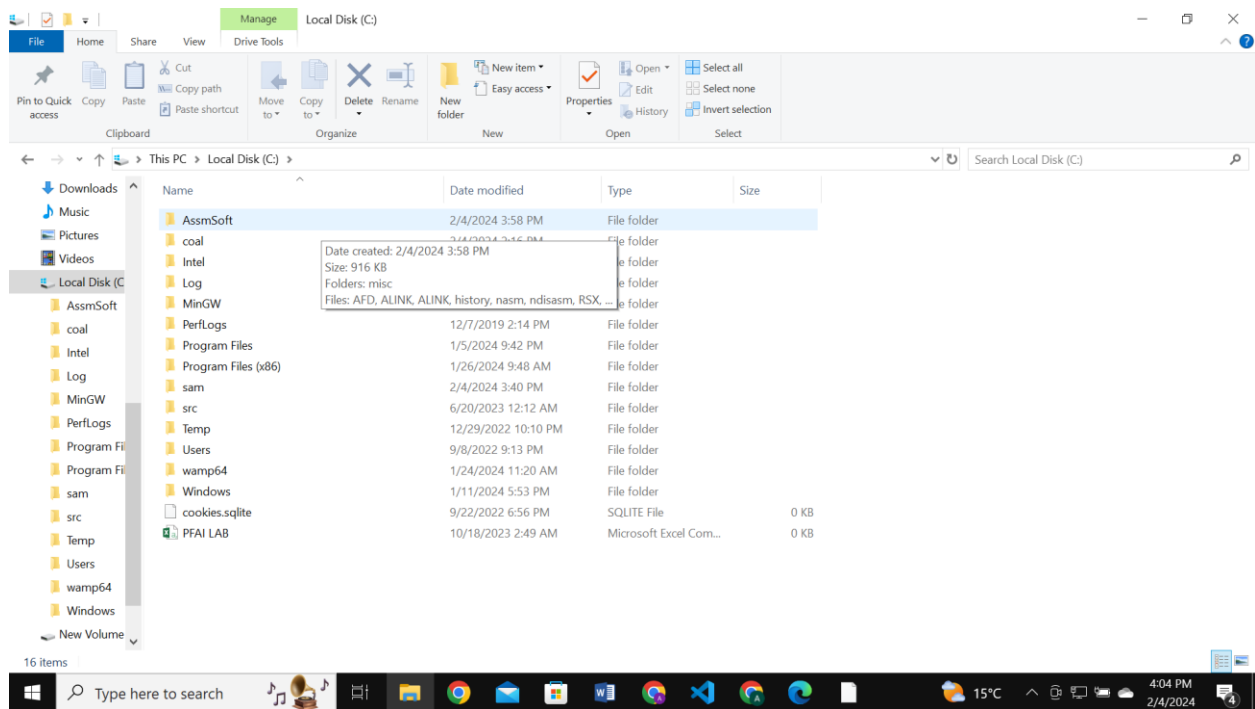

Downloaded NASAM from Google Classroom.

Extract files from this folder.

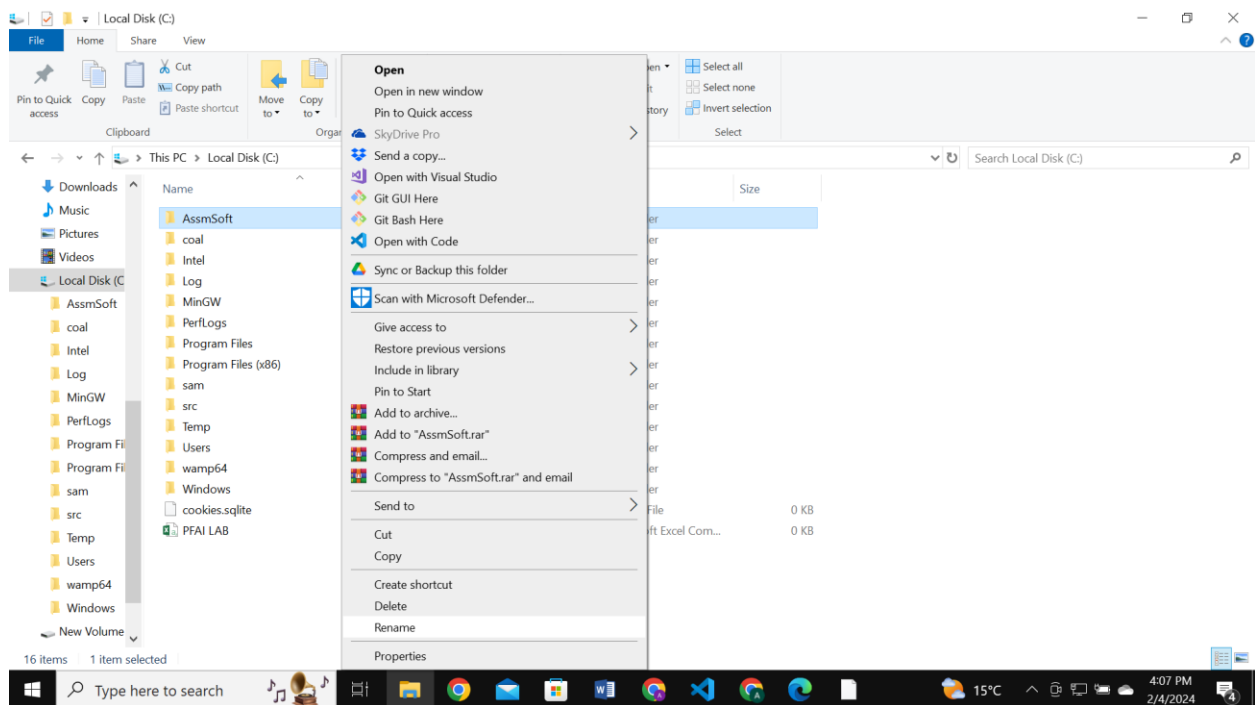

Step 5:

Paste the folder in c drive.

Step 6:

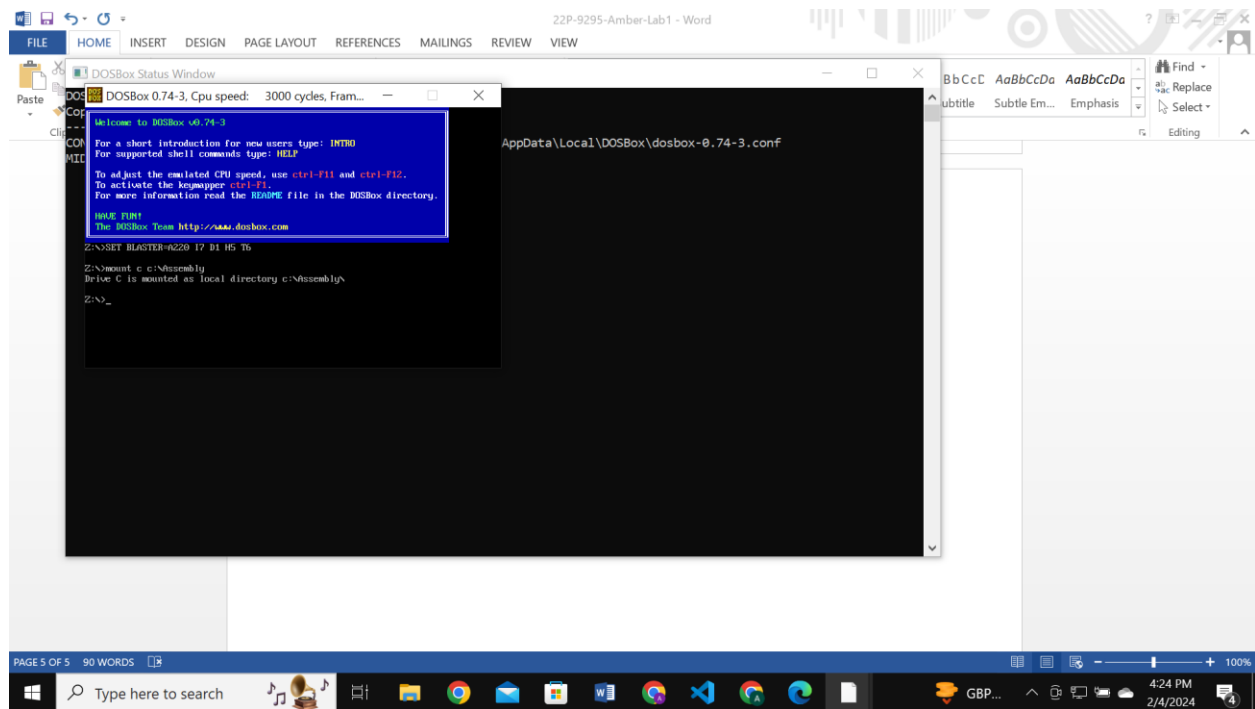

Rename the folder as Assembly.

Step 7:

Open DOSBox and mount the Assembly folder by using following command.

mount c c:\Assembly

Step 8:

Now run .asm file using commands mentioned downloaded from google class room.

And with that the setup is completed.

mount x c:\Assembly

X:

nasm c01-01.asm -o c01-01.com

afd c01-01.com
